- Familiar with REST API and Kanban board.
- Experience Using Git commands.
- Successfully build a website for Gemstone Constructions and Services
- Actively building projects that are available in GitHub for review.

WORK EXPERIENCE

2023 – Present Internship (JUUBIX)

During my internship at JUUBIX a London-based fintech startup company, I excelled in remote pair programming, quickly adapting to new roles and technologies. I proudly became proficient in Next.js, a vital skill gained while working on an assigned project. Additionally, I played a pivotal role in developing the main

app, a significant achievement in this extensive project. This experience has shaped me into an agile team player with strong technical capabilities.

2020 – 2022

Worked as a freelance full-stack web developer, consistently using WordPress, HTML, CSS, JAVASCRIPT, PHP, and MySQL. With this, I have successfully built websites and apps with the client's interaction interface and managed websites for multiple clients.

(2017-2020) Freelancer - Did freelancing, building websites (WordPress), digital marketing for various clients, and product promotion.

ACADEMIC BACKGROUND

(2022 till now) MICROVERSE - Ongoing remote course in software engineering at Microverse Institute USA.

Studying:

- JavaScript
- React Js
- Ruby
- Redux

(2019-2020) FREE CODE CAMP- Did free code camp certification in HTML, CSS, and PHP

(2013 – 2017) MASINDE MULIRO UNIVERSITY OF SCIENCE AND TECHNOLOGY

- Bachelor's Degree in Natural Sciences

CAREER ASPIRATION

I aim to identify and implement sustainable means of livelihood, working collaboratively with colleagues and other like-minded parties while maintaining the highest possible professional competency and intellectual proficiency.

HOBBIES AND PERSONAL INTERESTS

- Playing musical instruments
- Travelling and exploring nature

- Interacting and socializing with people
- Community empowerment
